

FUEL MODULES & PUMPS

FUEL SYSTEMS

When it comes to building fuel modules, Delphi applies its **OE expertise** and **technological leadership** to deliver the highest level of performance and customer satisfaction. Delphi's engineers each fuel module and pump with the same **stringent standards** we apply to the parts we make for top vehicle manufacturers.

FUEL MODULES & PUMPS

OE EXPERTISE

QUALITY THAT
VEHICLE MANUFACTURERS

TRUST

9% OE MARKET SHARE

- **Anodized aluminium** can **reduce flow loss** by up to **100%** in severe contamination
- **New carbon commutator** reduces oxidation and premature wear, **extending fuel pump life by up to 300%** vs copper commutators
- **Tested up to 150,000 miles** in temperatures from **-32 °C to 65 °C**
- **Over-molded armature** protects pump windings in corrosive environments
- Button style contacts feature additional wear material that can last **for over 1 million cycles**
- **High capacity synthetic mesh inlet filter** is able to filter out all items larger than **30 microns**
